

JUBAIL FRAGRANT CONTRACTING

مؤسسة عبق الجبيل للمقاولات

COMPANY PROFILE

OUR MISSION

To become the most trustworthy and innovative technical services provider globally. We believe in:

- Delivering fast, effective solutions to industrial challenges
- Building a reputation for excellence and integrity
- Pursuing continuous improvement and exceeding expectations
- Providing comprehensive services to power and process industries, including advanced security systems

Our commitment to providing top-notch services and exceeding expectations is unwavering.

SERVICES WE OFFER

With clear focus on offering to customers a fast and friendly solution for the smooth running efficiency of all our projects and operations.

We provide our services in following areas:

- SUPPLY, INSTALLATION, TESTING & COMMISSIONING OF SMART RMU, MRMU, LV & ATS PANELS.
- ENGINEERING SERVICES OF THE POWER PROTECTION SYSTEM AS PER SEC/NG AND SAUDI ARAMCO STANDARDS.
- POWER FACTOR CORRECTION SOLUTIONS FOR INDUSTRIES
- SUPPLY, INSTALLATION, TESTING & COMMISSIONING OF CCTV & SECURITY SYSTEM.
- INDUSTRIAL SUPPORT SERVICES
- GENERAL TRADING, SUPPLY OF HIGH-QUALITY MATERIALS.

SUPPLY INSTALLATION, TESTING & COMMISSIONING OF SMART RMU, MRMU & LV/ATS PANELS

Integrated with the remote terminal unit (RTU) and innovative conditional monitoring sensors, the smart ring main unit (RMU) and motorized ring main unit (MRMU) is an innovative solution that makes it easier for customers to answer the evolving challenges of electrical distribution. As an all-in-one solution, the smart RMU/MRMU is easy to purchase, install and maintain, helping to reduce operational costs. Its robust design fits even the harshest environments.

Design, Supply, Installation, Testing and commissioning of power distribution system (Low and medium voltage systems) e.g. RMU, MRMU & ATS/ LV panels.
Material supply of related products.

ENGINEERING SERVICES

Engineering services of power protection system e.g. preparation of schematic drawings as per SEC/NG/SARAMCO standards (SEEDS), OPDS, Interconnection diagrams, cable schedules and components selection as per PTS & SOW followed by SDMS, TMSS & SAMSS requirements.

POWER FACTOR CORRECTION

At JFC, we help customers reduce energy consumption and identify poor power quality sources.

Power factor is a measurement of how efficiently a facility uses electrical energy. Efficient power factor correction equipment lowers energy usage and lowers monthly electricity bills.

We offer a complete package of design, manufacture, supply, installation and commissioning of Power Factor Corrections panels for your industry.

Our Services includes:

- Power factor Calculation Studies.
- Fixed Low Voltage compensation.
- Automatic Switched Low Voltage compensation.
- Fixed Medium Voltage compensation.
- Automatic Switched Medium Voltage.
- LV and MV Harmonic Filters compensation.

ACCESS CONTROL & CCTV SYSTEM

JFC provides an intelligent access control & CCTV system with the last technology and high quality to cover all projects wise with the full scope of work such as design, supply, technical support, Installation, T&C, and third-party approval if required.

INDUSTRIAL SUPPORT SERVICES

We are a leading provider of comprehensive electrical solutions tailored to the industrial sector. With a commitment to safety, innovation, and precision, our team delivers high-performance systems that power Saudi Arabia's growing infrastructure and industrial landscape. Our core services are as follows;

- Cable laying, termination, and tray systems
- Lighting systems for industrial environments
- Installation of control panels
- Rapid mobilization for planned shutdowns
- Electrical support for industrial sites
- Electrical system verification and performance testing
- Final commissioning and client handover

THANK YOU!

Jubail Fragrant Contracting Est.

Suit# 1/3, 2nd Floor, Reziza Tower Al Amir Mansour
Intersection A - Al Khobar (North) Kingdom of Saudi Arabia.
